WORK EXPERIENCE

FULL STACK ENGINEER, MAILABS Pvt. Ltd.

October 2022 - Present

Projects:

Kalp Studio:

- Spearheaded the implementation of micro-frontend architecture, leading the project from inception.
- Developed and integrated multiple micro-frontend applications using React.js and TypeScript.
- Created an **NPM package** for common UI components, ensuring consistent UI across all micro-frontends.

Wallet Widget:

- Designed and developed a reusable wallet widget for seamless integration into multiple applications.
- Implemented dynamic configurations to make the widget highly customisable for varied use cases.

NiftiQ Asset Marketplace:

- Facilitated communication between technical and non-technical stakeholders, ensuring project progress transparency and addressing concerns.
- Managed team priorities to meet project deadlines and achieve milestones.
- Enhanced user experience and engagement by implementing new features and functionalities.

MyIPR Application:

- Integrated multiple payment gateways including CCAvenue, Razorpay, and Stripe to facilitate secure transactions.
- Implemented Know Your Customer (KYC) functionality using SDKs like Sumsub and Authbridge to enhance user verification and security.
- Conducted thorough testing and ensured seamless integration of payment gateways and KYC services.

Sach Foundation:

- Built a QnA model and CMS using React.js, Next.js, REST APIs, and GraphQL.

SOFTWARE DEVELOPER, Kellton Tech Solutions Pvt. Ltd.

March 2021 - October 2022

Projects:

HUMBL NFT(non-fungible tokens) MARKETPLACE:

- Translate wireframes and designs into good quality code and enhance application performance.
 - Functional point of contact, requirement gathering, feasibility check, impact analysis, business logic implementation mainly using OOPS concepts, involved in entire SDLC.
-

EDUCATION

B.TECH, (Electronics and Communication Engineering)

Shivalik College of Engineering, Dehradun Uttarakhand July 2021

- Made Arduino projects.
 - Attended Advanced python 4weeks course.
 - Final year project: Home Automation with IOT using Raspberry Pi.
-
